

**TRINITY EPISCOPAL CHURCH OF BETHLEHEM  
PRESENTS THE  
COR DATHLU CWNTAWE MALE CHOIR**

On November 1, Trinity Episcopal Church will present the *Cor Dathlu Cwnatawe Male Choir* from Wales in a "Return Journey" concert. The fifty person group represents the Welsh love of singing, which is a part of everyday life there. The men (and a woman soloist) will offer their powerful, soaring harmonies in a combination of traditional and contemporary favorites. The choir last entertained the Lehigh Valley in 2015, to a standing-room only audience.

The choir has a special feeling for the Lehigh Valley because of their historic connections here. They are from the town of *Ystradgynlais* in Wales, the same town where David Thomas devised a method to produce anthracite iron. He later relocated to the Lehigh Valley and helped develop its iron and steel industry.

The choir have designated proceeds from this concert as a benefit for Trinity's Soup Kitchen, which provides thousands of meals for those in need each year, five days a week.

A reception follows, with the opportunity to meet and greet members of the choir.
